Taking stock of GST & Property Workshop >

*If there's one aspect of GST you need to know about, it's **GST and Property**.*

The session...

Webb Martin Consulting is presenting a two hour workshop on *'Taking stock of GST and Property'*. Issues relating to GST and property remain very important. Rules have constantly evolved since they were introduced, culminating in a raft of changes towards the end of 2008. Some of the more recent interpretations have dramatically changed from the initial views proposed by the ATO.

The session will particularly look at recent developments including the *margin scheme amendments*, the *South Steyne* and *Brady King* decisions and *change in use* adjustments. It will also look at some of the more fundamental issues including supplies of going concerns, whether isolated property transactions are an enterprise, and partitioning.

The session will focus on **practical examples** to illustrate the changes and issues. This approach should be equally suitable for accountants and their property industry clients. Technical notes will also be provided.

The presenter...

Simon Calabria is a Principal at **Webb Martin Consulting** who specialises in GST. Simon is a well regarded presenter who provides a practical approach to technical matters, drawing on his experience from advising a diverse range of clients from sole practitioners to multinationals.

Where?
